

CoreSys Federal Capability Statement

CoreSys Federal (CoreFed) is a Woman-Owned Small Business (WOSB) providing information technology (IT) support to the Federal Government and US Department of Defense. The CoreFed leadership team has over thirty years of experience in project planning, execution, development and maintenance of IT systems. We provide project management and business analysis experience, and expertise in a variety of hard and soft IT skills, such as business intelligence and software development in modern and legacy languages.

Our Mission

Simplifying IT - by meeting the challenges of today, while seeking ways to simplify your IT environment and prepare for the future

Core Competencies

- Project Management support
